

Our Solar Window Screens are Attractive!

Solar Window Screens are not only good at shading your home's windows from the Sun, but they can be good-looking as well. With our five Suntex 80% and 90% Fabric options and our five Frame color options for you to choose from, you have twenty-five possible solar window screen color combinations for your Austin Texas home. Please be sure to take a look at our Solar Screen Pictures page on our website to see many examples of the different color combinations on the various types of homes.

With our twenty-five Solar Screen color combinations, you can really enhance the beauty of your Austin Texas home !

This customer has a Beautiful home located in North Austin Texas that she wanted Solar Window Screens that would compliment her home's exterior and to shade her home's windows. Based on her exterior colors, we used our 80% Chocolate Solar Screen sun control fabric with Tan frame, which created a beautiful complimenting look. The house now looks just that much prettier.

When choosing solar window screens, please strongly consider using a solar window screen for each of your home's windows. The appearance of your house will be enhanced considerably if you have a solar window screen installed on all of your windows.

Please be sure to request our **FREE Solar Window Screen Sample Kit** from our **Austin Solar Screens Website** www.JoshHobbs.com. Our Solar Screen Sample Kit will provide you with samples of each of our Solar Screen Fabric and Frame colors. These samples are perfect to help you determining what Solar Window Screens color combination you want for your Austin Texas house.
